

# Columbia Pike Traffic Changes

## LOCAL DETOURS

Arlington County is working to rebuild and improve Columbia Pike. New traffic patterns will cause delays between South Jefferson Street and the Four Mile Run bridge. These restrictions will be in place for most of 2020 and are intended to help keep traffic and pedestrians moving safely during construction.

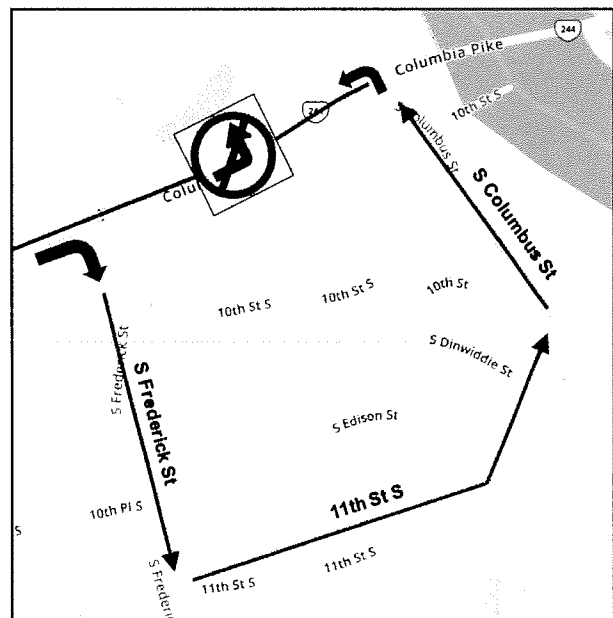

### WESTBOUND

Between South Dinwiddie Street and South Greenbrier Street, there is only one lane open for westbound traffic and there are new No Left Turn signs. Left turns from driveways onto Columbia Pike are also prohibited. Drivers are encouraged to use the U-turn at South Jefferson Street.

### EASTBOUND

Between South Greenbrier Street and South Dinwiddie Street, only one lane is open in the eastbound direction, with an additional lane open eastbound during weekday morning rush hours (7-9:30 am). There are new No Left Turn signs between South Greenbrier Street and South Dinwiddie Street. Left turns from driveways onto Columbia Pike are also prohibited.

#### Construction open house on Jan. 9

Join County staff at a drop-in open house to learn more about how construction will affect you and to ask questions.

Thursday, Jan. 9, 4:30-7:30 p.m.  
Arlington Mill Community Center, Room 527
