Facilities and Operations, Arlington Public Schools

Re: Notification of Demolition of the Fenwick Building

This correspondence is being sent as notification of the upcoming demolition of the Fenwick Building, located at 800 South Walter Reed Drive. The Fenwick Building demolition is necessary to clear the site for future construction of the new Arlington Career Center, construction of which is scheduled to commence in the 1st half of 2024.

Mobilization of the demolition contractor to the site is pending the release of the demolition permit by Arlington County. At this time, we anticipate demolition activities will commence in early August and continue to the end of September 2023.

Please contact me with any questions you may have regarding the above.

Sincerely,

Steve Stricker
Senior Project Manager
